HOW TO FIND THE RIGHT RATIO FOR YOUR PATIENTS?

5:1 | FIVE PARTS THC TO ONE PART CBD

Higher amounts of THC to CBD is a great option for those who have a higher tolerance but still want to quiet the psychoactive effects of THC.

1:1 | EQUAL AMOUNTS OF THC AND CBD

Contains the right amount of THC to get the full medicinal benefits while the equal amount of CBD helps calm the psychoactive effects of THC allowing for a more even and functional experience.

1:10 | ONE PART THC TO TEN PARTS CBD

Perfect for patients who want to microdose. The High CBD is great for inflammation relief while still providing the healing benefits of THC.
